Business Plan

Website Design & Google Business Profile Services for Regional NSW

Business Overview

Crane Platform Labs is a regional NSW website design business based in Junee, NSW. The business focuses on building clean, fast and SEO-friendly websites for tradies, cafés, service providers and small businesses across regional NSW.

Business Goals

Build strong local SEO rankings across Junee, Wagga Wagga, Albury and surrounding regional NSW areas while steadily growing recurring website support income.

Core Services

Starter Websites from \$900, Growth Websites from \$1,800, Premium Websites from \$3,200, Google Business Profile Setup for \$500, Website Care Plans from \$29/month and Website Changes from \$250.

Target Customers

Tradies, cafés, builders, mechanics, hairdressers, service providers and small businesses across regional NSW.

Marketing Strategy

Growth will focus heavily on local SEO, Google Business Profiles, Google reviews, location pages, internal linking and referral-based work.

Competitive Advantage

Clean websites, regional NSW focus, fast loading performance, simple communication and websites built for real enquiries rather than flashy design.

Financial Goals

Grow steadily over several years towards a sustainable side business generating approximately \$50K–\$75K annually.

Long-Term Vision

Become a trusted regional NSW website design business known for fast websites, honest pricing and helping small businesses get found online.
